Disposal of your old appliance

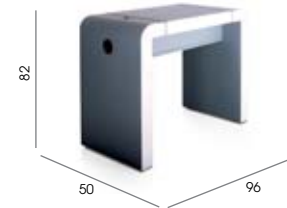

The crossed-out wheeled bin symbol which you will find on the 'Rating Plate' attached to your product, or appearing in the Assembly/Operating Instructions, signifies an obligation by the purchaser or owner, to dispose of the equipment in accordance with the European Directive 2002/96/EC. This is a statutory instrument commonly known as the 'WEEE Regulations', which effectively requires you to carry out disposals of all Electrical and Electronic Equipment separately from your usual waste facilities. Specialist waste controls, designated by the Government (or Local Authorities) are to be made available to prevent potentially harmful substances affecting the environment and causing possible human and animal health risks.

More information is available from your local Environmental Health Office, Local Authority Waste Disposal Service, or the sales point from which the product was originally purchased.

Using our industry expertise and creative flair, REM Design can help you plan your dream salon, offering advice on products, colours and layout to help you get the most out of your budget.

Whether your salon is large or small, and regardless of budget, we are always excited by the opportunity to create an environment that is stimulating, motivating and inspiring for your staff and clients.

With an extensive range of furniture to choose from, you can personalise your salon by using our REM Design service. The REM Design experience begins with one of our knowledgeable team members arranging to meet with you to discuss your project. During this visit, accurate site measurements will be taken before

discussing your needs and preferences, and explaining the REM Design process - detailing styles, colours, quantities and potential layouts to help you realise your dream.

Once back in the office, our design team uses the measurements taken to create a set of bespoke scaled floor plans and 3D visuals to suit your brief. Our state-of-the-art, industry-leading CAD technology ensures that these visuals accurately represent both your salon and our design. We combine your vision with our expertise to deliver a range of inspired designs that will accurately represent your brand.

When your requirements include items not offered on our standard range, such as reception desks, seating or styling sections, we can design and build bespoke solutions to your exact specifications using REM Bespoke.

At REM, we understand that today's working environments have to be responsive to the changing needs of the contemporary workplace. With this in mind, the designs we offer are inspirational and tailor-made to reflect the image and reputation of your salon.

This service is available for £225 + vat, which is refunded upon placement of an order totalling £3000 or more.

All we require is for you to send us a full colour JPEG with your logo, specify the desired size of the embroidery, and let us do the rest. Our embroidery team has a wealth of skill and experience, and can produce accurate, consistent results throughout your entire salon.

## REM ENVIRONMENTAL

We are committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment. We operate in compliance with all relevant environmental legislation and we strive to use pollution prevention and environmental best practices in everything we do.

We run our business in the 'greenest' way possible and although we don't claim to be saving the world with a few generic environmental policies, we do face up to our responsibilities both as a company and as a group of individuals trying to make a difference.

Waste costs money, stretches resources and it screams of inefficiency and incompetence. We have a policy, but for years we've educated and encouraged our staff to plan and use best practice to reduce waste.

Our CSR is more than just a statement of good intent - we have broken it down into real processes that we have implemented and will continue to develop in the future.

At REM we realise that due to the nature of our business, our carbon emissions are relatively low.

As well as the fundamental changes we have made to our business over the years, we have also taken a series of small internal steps throughout our company to help reduce our environmental impact even further.

We promote environmental awareness amongst our employees and encourage them to work in an environmentally responsible manner. To summarise, we are committed to making sure the impact we have on the environment for our future generations is minimal - after all, many are our future customers!

Sowing the seeds of change into our team to work, act and be conscious of how they carry out their day-to-day activities will ensure that in the future, acting environmentally responsible will become second nature.
